

EUROSLLOT Series 560

Functionality and high-quality appearance for a wide range of applications

Data sheet

EUROSLOT Series 560

The EUROSLot 560 Series is especially suitable wherever facade and cover gratings are constantly exposed to high loads. This applies in particular to outdoor use, above all in high-traffic, high-load public spaces such as walkways, where durability can only be guaranteed through the use of high-quality material and material processing. The EUROSLot 560 Series meets exactly these requirements. Its striking outward appearance goes hand in hand with excellent load capacities and makes it ideal e.g. for use as a facade element or cover grille for floor vents even in high-traffic areas like airports.

Technical data:

Wire	Width mm	Height mm	Rod	Width mm	Height mm
560	5	6	15x2	2	15

Grid	Material AISI	Slot (@) mm	Open area %	Weight kg/m ²	Thickness mm
565	304/316L	5	50	19.2	20.4
567	304/316L	7	58.3	16.9	20.4
5610	304/316L	10	66.7	14.4	20.4
56x-spe(*)	304/316L/Duplex	(x)	(x)	(x)	(x)

(*) : special needs : We can adapt the slot size according to your needs from 1mm to several centimeters. We keep available other support rods that can be spaced @ multiple of 25 mm
