

## **EUROSLOT Series B150**

Functionality and high-quality appearance for a wide range of applications

# Data sheet

## EUROSLOT Series B150

An outstanding feature of the EUROSLOT B150 Series is the mere 1.52 mm thickness of the profile wires that combine an elegant appearance with a maximum sense of space, making these products ideal for achieving striking aesthetic highlights in indoor and outdoor use. This characteristic makes them particularly suitable for ventilation applications and other uses where the material is not highly stressed, for example as a visual highlight in exterior facades or a solar protection solution for indoor or outdoor applications.

### Technical data:

| Wire | Width mm | Height mm | Rod  | Width mm | Height mm |
|------|----------|-----------|------|----------|-----------|
| B150 | 1.5      | 6.03      | 10x2 | 2        | 10        |

| Grid        | Material AISI   | Slot (@) mm | Free area % | Weight kg/m <sup>2</sup> | Thickness mm |
|-------------|-----------------|-------------|-------------|--------------------------|--------------|
| B153        | 304/316L        | 3           | 66.4        | 15.9                     | 15.4         |
| B155        | 304/316L        | 5           | 76.4        | 12                       | 15.4         |
| B156        | 304/316L        | 6           | 80          | 10.8                     | 15.4         |
| B15x-spe(*) | 304/316L/Duplex | (x)         | (x)         | (x)                      | (x)          |

(\*) : special needs : We can adapt the slot size according to your needs from 1mm to several centimeters. We keep available other support rods that can be spaced @ multiple of 25 mm
